A MAIL CARRIER ROBBED. FORT APACHE, October 4th.—A daring and successful mail robbery occurred yesterday on the post road to the Atchison, Topeka and Santa Fe Railroad. The carrier was stopped by four armed and masked men in a lonely spot about fifteen miles from this post, and was overpowered. The bbers at once rifled the pouches and carried off the money-order remittance. It was in the form of a check on the Bank of California, payable to William J. Bryan, the Postmaster of San Francisco. Postmaster W. S. Barnum has ordered the pay-

Copyright, 1887, by the California Associated Press. Tucson (A. T.), October 4th.-Word from Quijotoa reports a rich and wonderful strike in the bonanza properties. A drift driven from the Peerless into the Crocker broke into a veritable Aladdin's cave. Those fortunate enough to see it report it mar-velously beautiful. It is about 200 feet ng, 60 feet wide, and about 400 feet down from the top of the hill. The stalagmites and stalactites are wrought into many conceivable shapes. Three wagon-loads of this handicraft of nature were taken to the company's office, and are now being packed preparatory to being shipped to San Fran-

James Sullivan Denies that He Offered Judge Murphy a Bribe. San Francisco, October 4th .- [Special.]-

The Grand Jury to-day had as a witnes ames Sullivan, recently acquitted of killing E. A. McWorlley. He was asked if he did not say to attorney Mowry that he offered Judge Murphy \$1,000 to admit him to bail pending his trial, and \$1,000 more for his services during the trial. Sullivan denied making such statement.

Judge Murphy declared to-night that he was never spoken to on the subject, was never offered money, nor given any.

SPECIAL DISPATCHES TO THE BECORD-UNION.

WORSE AND WORSE.

College Hazers. PITTSFIELD, October 4th .- The exposure the brutal hazing of young George Choate, by the sophomores of Williams College, has brought down upon that institution a burst of popular indignation that led to a public meeting yesterday to de-nounce the faculty. President Carter is much chagrined and had hard work this

afternoon to prevent the wholesale arrest of the entire sophomore class, warrants having been sworn out against them by the victim's father. The faculty appeased the storm by promising to hunt out the offenders and turn them over to the State officials. A rigid investigation is being made in the affair, which has to-night brought out the announcement that Choate has long been a victim of some of the sophs. Not only was he treated as reported, but upon three other occasions he was taken into a bedroom, and compelled to pose in indecent attitudes, and at the same time to repeat the Lord's prayer, the creed, and deliver impromptu sermons upon religion. He was forced to call down imprecations on his own head and acknowledge that he was intended for future perdition. The result was that his mind became affected and gave way under the final torment. He began to believe what his inquisitors told him, and now at home during his ravings he cries out that he is a lost soul, and curses his fate, saying he was born damned. His family are naturally grieved and indig-

Yesterday five other victims of hazing were discovered, one man having been compelled to remove his raiment and cut his own hair off, after which he was sham pooed with ginger ale. Another one was taken out of a warm bed and stripped, led through the dead of night to the river, about an eighth of a mile away, and swung over the dark stream suspended from limb of a tree by a rope passed under his arms, and made to say and do a number of ridiculous things.

The statements of these unfortunates are being carefully taken down, and will be kept for future reference. The faculty have btained the names of five of the men, but the matter is kept so quiet that who they are is a religious secret. This will, however, put a final end to hazing at Williams, for the class of '91 has pledged not to haze the class of '92, and the present sophomores have in return promised not to further molest the freehour. These pledges will be lest the freshmen. These pledges will be filed at a meeting of the faculty. Young Choate is still out of his head, and

tertained Yesterday. Sr. Louis, October 4th .- At 9 o'clock the Scandalous Revelations of the Doings of President was met at his hotel by a committee and escorted to the Court-house under protection of a troop of mounted police. There was a reception by the Com-mercial Travelers' Association in the rotunda of the Court-house, which was handsomely decorated with evergreens and bunting. About five hundred traveling men passed by the President in single file Following them was a crowd, and hand-

shaking continued until 10:30. The reception over, the President hurried to his carriage through a side entrance and was driven to the excursion boat. At the same hour Mrs. Cleveland left the hotel and was aboard the boat a few minutes later, and then the President and vessel steamed down the river for a trip to Jeffer son Barracks.

The saloon of the vessel was handsomely adorned with flowers, and the United States Arsenal band was in attendance. There were between 300 and 400 invited guest board. The trip was gotten up as a relief for the President and Mrs. Cleveland from the almost constant round of receptions and other festivities. The boat ran down the stream about eight miles, turned and reached the landing again at 12:30. An accompanying excursion boat fired an artillery salute, while tugs, steamers and locomotives on both shores saluted with steam whistles.

The construction of a harbor at Oakland is of importance, and it is not questioned or opposed in the interior; but put alongside the claim of the river it is not a case of emergency, and in its immediate importance is not to be compared to the necessity for restoring the one-time navigability of the Sacramento and redeeming it from the narrow uses to which it has declined. The people have not been negligent in complying with the condition attached by the Government that hydraulic mining contributing injury to the river shall cease. They have invoked the powers of the Courts so effectually that it is no longer contended that their judgment that the system is a public nuisance when it sends deposits to the rivers, may be atstopped. It would seem then, since the Government itself has set its seal of con- press my feelings. self authorized interference to forever prevent the filling of the stream by artificial means, that the time has come for a broader policy on the part of Congress and the Federal departments toward the Sacra-

We have become perhaps, accustomed to the decadence of the stream, and are losing sight of what it once was and what it may again be; we are forgetting what a powerful aid to commerce it was and is, and how much greater a factor it can be in the State's development, if it has early reasonable care and protection.

It has now been five years and more

since the condition was attached that the improvement of the river must be dependent upon the stoppage of hydraulic mining. It may be that ten years hence improvement of the river will be but very little more advanced. A very few defiant violators of the law against depositing hydraulic mining debris in the stream can keep us in litigation for years, and consequently prevent river improvement under the present policy. The people have been diligent, at heavy cost, in meeting the it, and it would seem that the Government should now adopt a less narrow policy. That, indeed, it should render more effective aid than it has, to bring about that state of affairs in which hydraulic mining that endangers the river will be unknown. That it ought to do more than it has, or is doing, to bring about conditions under which there will be no room for excuses for declining to improve the stream by beginning the work of rectifying its channels, abolishing its bars, strengthening its banks, augmenting its scouring capacity, and generally conserving its navigability-a work that of necessity will extend over

If there is need for a broader policy for Oakland harbor, there is greater need for it for the Sacramento oiver; if more generous appropriations are due for Oakland's harbor channel, they are imperative for the Sacramento river. The Government, with an overflowing treasury, ought not longer to stand aside and render so little aid to the consummation of the end that will mark the beginning of improvement of the chief free highway of the State. We are far from the great centers of pop-

ulation; there the Sacramento river and its condition and importance are matters of small personal concern, and hence, unless we push our claims they will not be advanced. The great trouble has been that every honest effort to secure due attention of the Government for the rivers of California has been ridden to death by a myriad of claims for creeks, brooks, tail-races and dry runs all over the country, seven out of ten of which are swindles and are clapped on as riders to important bills as the price of support of worthy measures. This renders all river and harbor improvement difficult to achieve, and therefore ought to energize the demand for legiti- No Stockholders. GENERAL NOTICES.

For years I have tried many remedies for Catarrh, and never could find any relief till I used Ely's Cream Balm. I am happy to say that it has cured me. It is the best remedy known for Catarrhal Diseases of the head.—Michael Clancy, Fort Assinaboine, Mont. Ty.—I cannot help telling you how glad I am of your Cream Balm for Catarrh. Was suffering terribly at the time it reached me, and after trying everything I knew of, put your medicine on trial, and on first application I could notice relief, and in five days felt like a new man.—J. Belloli, San Jose, Cal.——feb-ly

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, aliays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhéea, whether arising from teething or other causes. Twenty-five cents a bottle. mr15-1yMWF

SATURDAY, At 1 o'clock, P. M.

43 SEATS RESERVED FOR LADIES. TA

The HIGHLAND PARK TRACT is situated at the city line on Y street, and will be reached in less than sixty days by Street Railway from junction with City Railway at O street; franchise has been granted and work now in progress. The ground is high and drainage excellent. Its fine elevation gives sufficient guarantee of absolute freedom from Spring overflows and malaria. Streets are eighty feet wide and alleys twenty feet-a most inviting feature. CITY WATER is guaranteed to be on the tract WITHIN NINETY DAYS. PURE AND COLD WATER is had at a depth of thirty feet, if desired. Gas or Electricity will be introduced as soon as actual building justifies it.

NO CITY TAXES!

As the property lies just over the city boundary, persons of small means will thus possess all privileges of city life without its burden of cost. The proposed Electric Railroad passes the property, and it is needless to direct attention to the great enhancement of value which the completion of this line will bring. At Los Angeles a similar road added four-fold to all adjoining lots.

HOMES WILL BE BUILT

For persons desiring it, after Lots are paid for, on most favorable terms; payments thereon to be made in installments at 7 per cent. interest. TERMS OF SALE: Ten Per Cent. at fall of Auctioneer's hammer; balance of one-third in ten days; remaining two-thirds in monthly in-

The World Moves .-- An Enterprising Restaurant Keeper Adopts the Dry Goods and Grocery Store Advertising Style.

The above is a true illustration of American ingenuity. The fellow, whoever he is, certainly exhibits a thorough knowledge of a distinction between first and second grade goods, and how to handle them, for it will be observed that he offers, at almost any price, articles without any particular reputation, such as clumsily trimmed, cheaply cured common stock grades of Hams, similar in quality to brands ordinarily pushed on to the market, and which can be purchased at Eastern packing points for fully a cent a pound less than "OUR TASTE," the price of which he holds firm and fairly high, knowing full well that the people appreciate something delicate and nice, and are willing to pay for it. Just think of it! The price of the delicious Hams is only a cent per pound more than common brands, while the difference in quality is equal in value to four times that amount.

WHEAT—Trade by sample is as dull as ever, and the prospect does not look specially bright for much animation in the near future. Considerable activity has prevailed, however, within the last day or so in speculative circles, and Call Board operations have assumed greater magnitude. This is to some extent owing to sales for account of whom it may concern, to close out contracts. Matters appear to be settling down, and it is hoped, that before the close of this month, all obstacles in the way of renewal of

HOPS—The English harvest is nearly all in. The whole aspect of things in that country has been entirely changed through the late gales, which completely upset all calculations. Quantity has been reduced very considerably; but even now it is found that the yield is as heavy as it was estimated by some people before the gales. The Kentish Observer says that numbers of East and Mid Kent planters have larger crops even than they had last year—that phenomenal hop year of 18:6. But unfortunately there is a very large proportion, indeed, of discolored and diseased hops. The latter are worthless and should never have been picked; the former will instantiate the contraction of the contra diseased hops. The latter are worthless and should never have been picked; the former will just about remunerate the grower, and that is all. The great difference in the quality of this season's crop is shown by the wide range of values—£4 per cwt. for mediums, and £7 to £8 for choice. Taken altogether, the season is one of disappointment to the British planter. In the local market no change for the better is noted. BUTTER—The market is in an unsettled condition, with some irregularity in prices. While it is true that our too quotation is obtained for fancy, it is but fair to state that trade of this character is of light proportions, and buyers are careful not to take any more than will meet actual wants. High prices check custom. Medium grades, and even good qualities, if fresh, do not move of with freedom, as purchasers are giving increased attention to pickled roll and firkin, thus increased trade in those descriptions. We quote: Fancy, 47½c; good to choice, 35@45c; fair, 25@30c; mixed lots, 17@20c; firkin, 23@25c for fancy, 20@22½c for good, and 15@18c B b for poor to fair; pickled roll, 27@30c B b. Eastern, 15@17c B b for ordinary to fairly good quality. CHEESE—Prices are fairly well maintained. The supply is good, while the demand is not specially urgent. Quotable at 13@14½c B b for good quality.

EGGS—Parcels direct from ranch are wanted at full figures. Store lots are slow of sale, the Eastern article being often taken in preference. We quote: Califormia Ranch, 37½c: good store lots, 25@35c; common, 17@20c B dozen. Eastern, 19@21c B dozen.

POULTRY—Fair demand for choice stock. Two late consignments of Ducks were a loss to shippers, every Duck dying on the way, presumably for want of water. Too much crowding of Poultry in coops is also very often attendant with bad results. We quote as follows: Live Turkeys, Gobblers, 17@19c; Hens, 16@18c; Roosters, \$5 50@6 50 for old, and \$5 50@7 for young. Owing to warm weather nearly all recent shipments of Game spoiled before reaching market, and had to be condemned on arrival. We quote prices as follows: Quail, \$1 50@175 B dozen; Mallards, \$2 60@3 50; Sprig, \$1 50@2: Teai, \$1 50@1 75 B dozen; Widgeon, \$1 25@1 50 B dozen; Venison, 6@10c B WOOL—The market remains in the dull state

WOOL—The market remains in the dull state heretofore described, though once in a while a few parcels of cheap fall stock go off to scourers. There is no shipping trade for fall Wool, and none for the bulk of Oregon and other spring stock, as yet, though dealers insist that some demand must spring up soon. Trade at Eastern centers continues quiet, but with a little more inquiry, and with reported transactions as somewhat larger last week than for many preceding weeks. Local sales during the week foot up over 200,000 fbs fall at 7@10c for poor plains to fair mountain. We quote spring clip:

Liver Complaint

Is more surely and speedily cured by the use of Ayer's Sarsaparilla, than by any other remedy. ** I was a great sufferer from liver troubles, and never found anything that gave me permanent relief until I began taking Ayer's Sarsaparilla, about two years ago. A few bottles of this medicine produced a radical cure. - Wm. E. Baker, 155 W. Brookline st., Boston, Mass.

A Remarkable Cure. Ayer's Sarsaparilla has cured me of as bad a case of Abscess of the Liver as finy human being could be afflicted with and live. I was confined to the house for two years, and, for the last three months of that time, was unable to leave my bed. Four physicians treated me without giving relief, and, in fact, nothing helped me, until I tried Ayer's Sarsaparilla. After using a quarter of a bottle of this medi-cine I began to feel better, and every additional dose seemed to bring new health and strength. I used three bottles, and am now able to attend to my business. I walk to town—one mile distant—and return, without difficulty. Ayer's Sarsaparilla has accomplished all this for me.—W. S. Miner, Carson City, Mich. Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.
